ABOUT ME

I am currently a senior at Roosevelt High School with an unweighted GPA of 3.9/4. I entered the computer programming scene in 7th grade when I became captivated with this newfound ability to create. I've been coding ever since and have become knowledgeable in languages such as Java, HTML/CSS, and C#. Outside of programming, I love to play basketball and read nonfiction. I'm currently reading "The Everything Store" by Brad Stone and my favorite basketball player is Isaiah Thomas.

PROGRAMMING EXPERIENCE

- 5 YEARS JAVA EXPERIENCE (2012 - now)
 - Developed an extensive Minecraft modded client
 - Collaborated on a carpool organizer with web integration
 - Produced an accurate spell checker with a custom algorithm
 - Collaborated on a note-taking tool
- 2 YEAR FORMAL JAVA EDUCATION (AP Computer Science 2015 - 2016, Projects in CS 2017 - 2018)
- 1 YEAR VISUAL BASIC/C# EXPERIENCE (2011 - 2012)
 - Created and learned from a multi-tool, virtual OS, and DLL injection programs.
- 1YEAR WEB DESIGN EXPERIENCE (2017 - 2018)
 - Created my own website through HTML and CSS

NOTABLE VENTURES

OPERATION STORY FOR A MEAL (2015 - 2016)

- Led a community service project
